Serif PagePlus 3.0

Desktop Publishing Power made Easy

This carton was created with PagePlus!

Welcome to the Desktop Publishing SuperStar. Serif PagePlus 3.0 does it ALL! It's packed with hot new features that make it more powerful, yet easier to use, for all your publications. Discover how you can easily create eye-grabbing ads, flyers, newsletters, proposals and much more...

Professionally designed templates. Just add FontPack* fonts and ArtPack* clipart...
Beyond ease of use! Hints and Tips, ToolHints, QuickHelp, Layout Checker and more. And choose your own pace with Intro, Publisher, and Pro levels.
A ToolBox of design aids, free rotation, wrap text to fit, Pantone® colors, frames, styles, and color separations. Serious Power!
TablePlus* is the quick and easy way to great looking tables. Math, rotated text, and QuickFormat templates...
TypePlus* for hot text effects and cool logos...
PhotoPlus* for image processing, conversion and funky filters...
Integrated word-processing with WritePlus. Word-count, Spelling, Thesaurus and more. Or simply import from your favorite WP...
Unique ChangeBar and Property Palette for dynamic on-screen changes. It couldn't be easier!
Full vector drawing tools with DrawPlus*. Create illustrations, customize your clipart, distort text shapes. Wow!
MEGA power
TOTALLY SURFED!
NO WORK ZONE
Loved It!

SUPER BUNNY

Serif PagePlus 3.0 – for individuals, growing businesses, education, printers and designers... Everyone!

Now you can create impressive flyers, newsletters, reports, invitations, business stationery, forms and more. Even full color greetings cards, ads and brochures! For the first time there's a DTP that gives you true high-end power with everyday ease-of-use.

Get started in minutes

Install PagePlus and go. Start from scratch, or choose from a range of professionally designed Instant Documents. With ToolHints, Interactive Demos, PagePlus Assistants and the easiest interface around, you'll create your first page in minutes.

Layout publications easily

Drag anything, anywhere on the page and pasteboard. Drag and drop text in and out of frames. Accurately place and size items using movable rulers and guides. Zoom out for a full page view, zoom in to make fine adjustments.

Add graphics...

Use full-color clipart and photographs from ArtPack* and PhotoPack*. Import from your graphics program or scanner. PagePlus accepts all major formats and OLE objects, including Serif Add-Ons TablePlus*, TypePlus*, PhotoPlus* and DrawPlus*. Drop in position, size, crop or rotate. Even colorize. Then add lines, ovals, boxes, coupons and more using the handy ToolBox.

...and text

Enter text using WritePlus, integrated word-processor, or import from your favorite WP. Flow text automatically around, and inside, graphics. Try Serif FontPack* TrueType fonts. Add pizzazz with effects such as rotation, outline, shadow and fine kerning. Best of all, use the unique ChangeBar for instant visual adjustment...

Finally, print or export

Get great output from your dot-matrix, ink-jet or laser printer. Or create full-color separations – a major industry first. Or use Export as Picture to paste your page or logo into another application.

With the Desktop Publishing Power of PagePlus, it's never been easier to create a good impression!

Serif, Automatic for the People.

Like all Serif marketing materials, this carton was designed and color separated using PagePlus.
